

## **AMENDMENTS TO THE SPECIFICATION**

Please replace paragraph [0028] with the following paragraph:

[0028] The LC panel assembly 300, in structural view shown in FIG. 3-2, includes a lower panel 100, an upper panel 200 and a liquid crystal layer 3 interposed therebetween while it includes a plurality of display signal lines G<sub>1</sub>-G<sub>n</sub>.sub.n and D<sub>1</sub>-D<sub>m</sub> and a plurality of pixels connected thereto and arranged substantially in a matrix in circuital view shown in FIGs. 1 and 2.

Please replace paragraph [0032] with the following paragraph:

[0032] The LC capacitor C<sub>LC</sub> includes a pixel electrode 190 on the lower panel 100, a common electrode 270 on the upper panel 200, and the LC layer 3 as a dielectric between the electrodes 190 and 270. The pixel electrode 190 is connected to the switching element Q, and the common electrode 270 covers the entire surface of the upper panel ~~100-200~~ and is supplied with a common voltage V<sub>com</sub>. Alternatively, both the pixel electrode 190 and the common electrode 270, which have shapes of bars or stripes, are provided on the lower panel 100.
